NWS Spotter Training

GENERALLY SPEAKING

Steve K9DY and Jack W8ISH have completed the General class. It was very well attended and at least one of the attendees has passed their general test. More hope to take the test at the next MARC meeting. Marc Snell KC9CCM explained waveforms to the General study class which everyone found extremely usefull. Thanks to everyone who participated, attended and a special thanks to the Old National Bank for use of their community room.

Future classes are being considered. - Jack, w8ish

VEC Testing

Our Volunteer Examiner Coordinator (VEC) team is ARRL accredited, and capable of administering any amateur radio test. As a public service, the Mid-State Amateur Radio Club sponsors test sessions after all but one of its monthly meetings. (September testing is done prior to the picnic.) Meetings begin at 8:00 AM with testing following the meeting (begins about 9:30 AM until 11:00 AM). We would love to have you join us for the meeting. Please check out our website at www.midstatehams.org

Hamfest/Event Info

The **Dayton Hamvention** will be held on Friday, May 15, Saturday, May 16 and Sunday, May 17, 2009 at Dayton, Ohio.

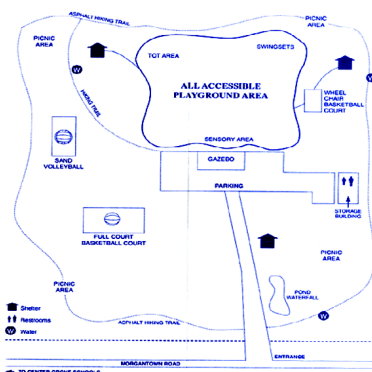

For more info go to www.hamvention.org

The **17th Annual White River Township Fire Department Strawberry Festival** will be held on Saturday, June 13, 2009 at the Pleasant Grove Elementary School, 5199 West Fairview Road, Greenwood, IN from 10 AM to 10:30 PM. MARC will have a tent and display set up to support the fire department. Let Jack W8ISH know if you can attend and help out. There is always great food, ice cream and of course, strawberries at the event. You don't want to miss it.

ARRL's Field Day event is scheduled for Saturday, June 27 and Sunday, June 28, 2009. MARC will be holding a club event on Saturday June 27th from Noon to Dusk at Indepence Park in Johnson County, Indiana.

The park is located at 2100 Morgantown Road just north of Stone Crossing Road in White River Township.

The event location is at the REMC shelter house (located on the map in the top right hand corner). More information will be available at the next MARC meeting.

If you know of any other Indiana hamfests coming up, please contact Linda at PIO@midstatehams.org.

Anyone attending any of the hamfest listed are encouraged to take photos at the event and send them to kc9gch@arrl.net. I will try and get them on the INARRL.

Weekly Net
Every Sunday
at 7PM ET

Tune in to hear
the ARRL
Newsline!

The Mid-State Amateur Radio Club sponsors a weekly traffic and social net on our repeater. The net begins at 7:00 p.m. local time, and features local news, announcements, and NTS traffic, as well as rebroadcasts of Amateur Radio Newsline. This is a great chance to meet other local amateur radio operators and test your operating skills.

VE's On The Road

VE's Test IMPD Officers

A growing number of police officers in Indianapolis have decided to get their ham radio licenses. This, after being told by their superiors in the department to remove all personal radio gear from patrol vehicles. Now they are discovering that three's more to the hobby than idle chit chat. Some are so impressed that they are even helping to organize training and testing sessions for their fellow officers. Amateur Radio Newsline's Jack Parker, W8ISH, has the latest: As we first reported last February, the Indianapolis Metro Police Department has cracked down on road officers using Amateur Radios without a license. This comes following a complaint filed with the FCC by a local ham. As a result the Indianapolis Police Chief ordered all illegal radios removed from police cars until the officers became licensed hams. That forced dozens of Metro officers to race off to the nearest Amateur Radio book store.

Veteran police officer Dewey Runnels passed his test and helped organize a week-day test session for officers working Indy's eastside district. Over sixty officers signed up to take the Technician Class license test.

This called for a response from the ham radio SWAT team. That stands for Swift Working Amateur Testers. VE Dave Wendt-KA9OOH, recruited thirteen volunteer examiners from four Central Indiana counties to handle the overwhelming number of applicants. IMPD provided a training room, the officers lined up, produced an ID and put pen to paper to earn their Tech ticket. The centralized test session allowed officers from three different shifts an opportunity to work the exam into their work schedule.

Of those pre-registered only one third showed up to take the test. Sixty percent of the officers passed and now await their new amateur radio call sign. Officer Dewey Runnels KC9PIY, expects future test sessions to be better attended. He is excited

about his new privileges and looks forward to a General Class upgrade. KC9PIY: "I've talked to a couple of guys that have been able to talk to Canada, California and South America and I want to be part of that." Future weekday test sessions are being scheduled to accommodate the growing number of IMPD officers wishing to earn their Technician Class license.

Reporting from Indianapolis, this is Jack Parker W8ISH

25th Anniversary Event -W9M

W9M

*** SPECIAL EVENT STATION ***

9 May 2009 from 1400 to 0200 (UTC)

Commemorating the 25th Anniversary of the Mid-State Amateur Radio Club, Franklin, IN, MARC has scheduled a special

event station to be held in Indianapolis at the W9IMS station location.

Contacts will hopefully be made on the following frequencies: 21.340, 14.240, 14.240, 7.240, 146.520 MHz. Contacts made may request a QSL, by sending a SASE to MARC, P.O. Box 836, Franklin, IN 46131.

Brian, W9IND has provided us with the following directions to the W9IMS Comm Center which is located on the property of Mike Koss, W9SU:

1. If you'd rather plug in the coordinates and let MapQuest, etc. tell you how to get there ... the address is 3321 N. Gale St. Mike's phone number is 545-5412, and my cell phone number is 506-1980.

2. If you plan to compete in the "Single Op — Unassisted" category (sorry, that's a contesting joke) and find the Comm Center on your own, a good place to start is at Keystone Avenue and 34th Street on the eastside of Indy. (If I-70 is convenient for you, follow it to the Keystone Avenue exit and take the North ramp, then continue driving north till you reach 34th Street ... look for the Sunoco and Marathon stations.)

3. From Keystone and 34th, head east on 34th Street for about 10 blocks, keeping your eyes open for Olney Street. Don't turn on Olney — just slow down and get ready to turn right (south) on the very next street, Gale.

4. At Gale Street, ignore the DEAD END sign and the fact that it looks like someone's driveway; you'll soon find yourself on a tree-lined lane. Take it one block until the pavement runs out ... and you're there.

5. The Comm Center is the house on your immediate left, and Mike's residence is the house a little farther back on the left. You can park on the right, either in the front yard of the abandoned house or in the field just south of it.

Please mark your calendar and let's have a great event!
